

Canal Park, Butetown, Cardiff

This project was designed by Cardiff County Council Landscape Architects, we successfully tendered for the works which comprised the installation of a One on One basketball court, creation of 2 junior natural grass football pitches and repairs to an existing basketball court.

The One on One court required excavation and landscaping of topsoil. Type1 subbase and 2 layers of tarmacadm.

The rebound goal is 4m wide x 3m high it was suggested by Landcraft as an alternative to the original design and has proved successful, it allows the designer a choice of colours and removes any timber rebound boards, which give a surface for graffiti.
